

Marco Musiani

Marco Musiani was born in Bologna, Italy on 10 September 1953 and graduated in chemistry at the local University in 1977.

Marco Musiani has worked for the Italian National Research Council (CNR) as researcher since 1981, senior researcher since 1995 and research director since 2001, coordinating the research group “Electrochemistry of thin film materials”. He has retired on 30 September 2020 and is now a research associate of ICMATE CNR.

Marco Musiani has been the Executive Secretary of the International Society of Electrochemistry (ISE) from 2004 to 2018, after being the ISE Regional Representative of Italy from 1998 to 2003. He has coordinated the organization of the 69th ISE Annual Meeting (Bologna, Italy, 2-7 September 2018) attended by over 2000 electrochemists. He has been appointed Honorary Member of the ISE in 2019. He has been Chair of the Electrochemistry Division of the Italian Chemical Society from 2014 to 2016.

Marco Musiani has studied and studies various aspects of the electrochemistry of thin film materials, including electropolymerization, anti-corrosion coatings, corrosion inhibitors, passivity, electrochemical deposition of alloys and composites, conducting polymers, electrocatalysis and electrochemical impedance spectroscopy. He has published over 200 papers in peer-reviewed journals.
